Dr Sandeep Suchowa MD MRCGP

Dr Daniel Djemal BSc (Hons) MBChB MRCGP

Dr Kawther Al-Shahib BSc MBBS MRCGP DRCOG

The Ivers Practice is a General Practice open to all patients living within our Practice boundary in Iver and the parts of the surrounding area. We work in partnership with our patients and our Patient Participation Group to provide medical care for our patients.

We are a General Medical Services (GMS) Practice offering Primary care services for the diagnosis and prevention of disease. We help patients to manage their health and prevent illness. Our GPs assess, diagnose, treat and manage illness. They carry out screening for some diseases and promote general health and wellbeing. Our GPs act as a patient's advocate, supporting and representing a patient's best interests to ensure they receive the best and most appropriate health and/or social care. Our GPs also provide the link to further health services and work closely with other healthcare colleagues. They may also arrange hospital admissions and referrals to other services and specialists and they link with secondary

and community services about patient care, taking advice and sharing information where needed. They also collect and record important information from other healthcare professionals involved in the treatment of our patients.

Our GPs are also involved in the education and training of doctors, practice staff and other healthcare professionals.

Our Mission Statement:

“Provide high quality safe and effective primary care services, that are patient centred. To educate and help patients to be aware of their health needs, promoting choice, whilst using NHS resources in a responsible and appropriate manner”

Vision:

To work in partnership with our patients and staff to provide the best Primary Care services possible working within local and national governance, guidance and regulations.

Our Aims and Objectives:

- To ensure that our service and the environment in which they are provided are of high quality, safe and effective
- To provide monitored, audited and continually improving healthcare services
- To provide healthcare which is available to a whole population
- To create a partnership between patient and health professionals which ensures mutual respect, holistic area and continuous learning and training
- To provide accessible healthcare which is proactive to healthcare changes, efficiency and innovation and development
- To improve Clinical Governance and Evidence Based Practice
- To improve clinical and non-clinical risk management
- To identify and manage risks in clinical risk areas and non-clinical areas
- To meet our environmental and sustainability responsibilities
- To meet the targets that have been set to manage and improve services for our patients
- To review and improve communication between our practice and our patients
- To recruit, retain and develop a highly motivated and appropriately skilled workforce
- To provide a high standard of physical environment for our patients as possible
- To provide robust Information Technology systems in order to support The Ivers Practice

Our Services:
